DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Page 2

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Considering independent claim1 from which claims 2-15 depend, it should be clearly recited that the valve support disk has a portion that is cooperably secured or associated with the recessed connecting portion that allows the sliding barrel and the valve support disk to move as a single valve unit to control fluid flow through the passage of the floating barrel. Also, it should be clearly stated that the adjusting support bar allows for the float barrel to be adjusted at or to achieve different water levels. In addition, it should be clearly stated in claim 1 that the pivotal press plate control fluid flow from the upper cover, while allowing at least some of the water flow therefrom to flow into the outer chamber to add weight to the floating barrel to change its buoyancy, and relieving the weighted fluid through the passage of the floating when a rising liquid level move the sliding barrel and the valve support disk to an open fluid flow position.

If the claims are amended in the manner as recited above, they would appear to be in condition for allowance. Therefore, clarification is hereby requested.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to George L. Walton whose telephone number is 703-308-2596.

The examiner can normally be reached on M-F, 8:00-4:30. If attempts to reach the examiner by

telephone are unsuccessful, the examiner's supervisor, Dave Scherbel can be reached on 703-

308-1272. The fax phone number for the organization where this application or proceeding is

assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
